Hiring Manager
Safaricom PLC
Nairobi, Kenya

Dear Hiring Manager,

I am writing to express my interest in the AI & Machine Learning Engineer attachment position at Safaricom PLC. With a strong background in machine learning, data science, and software engineering, I am excited about the opportunity to contribute to the development of scalable intelligent systems that enhance financial services. My experience in building robust AI models and deploying them in production environments aligns well with the key responsibilities in Safaricom.

In my previous projects, I have successfully transitioned machine learning models into production-grade APIs using frameworks such as Flask and FastAPI. My repository, "CryptoChatbot", demonstrates my ability to develop predictive models and integrate them with real-time data, while my work on Machine Learning, Deep Learning: Perceptron and Adaline, Data Science, Programming, and tools: Jupyter Notebook, Scikit-Learn, Pandas, NumPy, Matplotlib, Docker, GitHub. Additionally, my proficiency in tools such as Docker and CI/CD pipelines positions me well to contribute effectively to your MLOps and infrastructure needs.

I am particularly passionate about bridging the gap between data science and production engineering, ensuring that AI systems are not only effective but also reliable and scalable. I look forward to the opportunity to discuss how my skills and experiences can contribute to the innovative projects at Safaricom PLC.

Thank you for considering my application. I hope to discuss my candidacy further.

Yours Sincerely,

Aron Kipkurui
